

Armor Knowledge Base

Armor Knowledge Base

For patching information regarding Meltdown and Spectre, see [Meltdown - Spectre Remediation](#).

Requirements / Pre-installation

Armor Complete

- Operating system availability and fixed instance offerings
- Browser support
- Supported ciphers
- Subscribe to account notifications and contact Armor Support

Armor Anywhere

- Operating system compatibility
- Browser support
- Resource requirements
- Firewall rules
- Pre-installation scripts
- Subscribe to account notifications and contact Armor Support

Onboarding / Installation

Armor Complete

Learn how to complete the onboarding process and set up your infrastructure:

- Account administrators
- Invited users

Armor Anywhere

Learn how to complete the onboarding process and install the Anywhere agent:

- Windows 2008
- Windows 2012 and 2016
- Linux

For upgraded users, review the following information:

- Frequently Asked Questions for Generation 4
 - Introduction
 - Infrastructure
 - Pricing / Billing
 - Continuous Server Replication (Disaster Recovery)
- Complete the pre-upgrade process
- Complete the post-upgrade process

Product user guides

Armor Complete
