

# Installation

[Home](#) > [Installation](#)

## Armor Complete

As a first-time user in AMP, you must:

- Complete the onboarding / invitation process
- Access AMP
- Invite users
- Set up your infrastructure

To complete the onboarding process in AMP, review the appropriate guides:

- [Account Administrators](#)
- [Invited Users](#)

## Armor Anywhere

As a first-time user in AMP, you must:

- Complete the onboarding / invitation process
- Access AMP
- Install the Anywhere agent
- Configure your notification preferences

To complete and onboarding process in AMP, see:

- [Windows 2008](#)
- [Windows 2012 and 2016](#)
- [Linux](#)

For users who are upgrading from Generation 3 to Generation 4, review the following topics to better understand the upgrade process, as well complete the invitation process and access AMP.

- [Complete the pre-upgrade process](#)
- [Complete the post-upgrade process](#)
  - [Frequently Asked Questions for Generation 4](#)
