

# Armor Knowledge Base

## Armor Knowledge Base

### Requirements / Pre-installation

---

#### Pre-deployment considerations for Armor Complete

- [Operating system availability and fixed instance offerings](#)
- [Browser support](#)
- [Supported ciphers](#)
- [Subscribe to account notifications and contact Armor Support](#)

#### Requirements for Armor Anywhere

- [Operating system compatibility](#)
- [Browser support](#)
- [Resource requirements](#)
- [Firewall rules](#)
- [Pre-installation scripts](#)
- [Subscribe to account notifications and contact Armor Support](#)
- [Port-Forwarding Server Deployment](#)

### Onboarding / Installation

---

#### Armor Complete

Learn how to complete the onboarding process and set up your infrastructure:

- [Account Administrators](#)
- [Invited Users](#)

After you complete the Sales process, you will receive an email to access the Armor Management Portal (AMP) for the first time.

For upgraded users, review the following information:

- [Frequently Asked Questions for Generation 4](#) (infrastructure, pricing / billing, Continuous Server Replication (Disaster Recovery))
- [Complete the pre-upgrade process](#)
- [Complete the post-upgrade process](#)
- [SSL VPN for Gen 3](#)

#### Armor Anywhere

Learn how to complete the onboarding process and install the Anywhere agent:

- [Windows 2008](#)
- [Windows 2012 and 2016](#)
- [Linux](#)

After you complete the Sales process, you will receive an email to access the Armor Management Portal (AMP) for the first time.

### Product User Guides

---

#### Armor Complete

Home screen: Understand and troubleshoot data from the security dashboards

- [Health Overview Dashboard \(Armor Complete\)](#)
  - [Protection Dashboard \(Armor Complete\)](#)
    - [Improve your Protection score](#)
  - [Detection Dashboard \(Armor Complete\)](#)
  - [Response Dashboard \(Armor Complete\)](#)
- [Manage your health scores \(Armor Complete\)](#)

Security screen: Analyze your virtual machine's subcomponents, review logs, manage firewall rules, and more

#### Armor Anywhere

Home screen: Understand and troubleshoot data from the security dashboards

- [Health Overview Dashboard \(Armor Anywhere\)](#)
  - [Protection Dashboard \(Armor Anywhere\)](#)
    - [Improve your Protection score](#)
  - [Detection Dashboard \(Armor Anywhere\)](#)
  - [Response Dashboard \(Armor Anywhere\)](#)
- [Manage your health scores \(Armor Anywhere\)](#)

Security screen: Analyze your server's subcomponents, review logs, and more

- Malware Protection
- File Integrity Monitoring (FIM)
- Patching
- Vulnerability Scanning
- Dynamic Threat Blocking
- Security Incidents
- Firewall Rules
- Security Incidents

- Malware Protection (Armor Anywhere)
- File Integrity Monitoring (FIM) (Armor Anywhere)
- Patching (Armor Anywhere)
- Vulnerability Scanning (Armor Anywhere)
  - Scan Details (Vulnerability Scanning Details)
- Dynamic Threat Blocking (Armor Anywhere)
- Security Incidents (Armor Anywhere)

**Infrastructure screen: Create, configure, and maintain your virtual machine**

- Workloads
- Virtual Machines
  - Continuous Server Replication (Disaster Recovery)
  - Continuous Server Replication (Disaster Recovery) for upgraded users
- Advanced Backup
- IP Address
- L2L VPN Tunnel
- SSL VPN

**Infrastructure screen: View the security status of your public cloud instances**

- Virtual Machines (Armor Anywhere)

## Armor Portal Account User Guide

---

**Log Management screen: Configure log collection, view logs, upgrade log collection options**

- Log Management

**Marketplace screen: View, order, and manage available add-on products**

- Armor Marketplace

**Log Relay: Obtain Log Relay for remote log collection**

- Introduction to Log Relay
  - Step 1: Obtain Log Relay for Remote Log Collection
  - Step 2: Create a remote log source
    - Create a remote log source (AWS CloudTrail)
    - Create a remote log source (AWS GuardDuty)
    - Create a remote log source (AWS WAF)
    - Create a remote log source (Cisco ISR)
    - Create a remote log source (Cisco ASA)
    - Create a remote log source (Juniper)

**Support screen: Contact Armor Support**

- Support Tickets

**Account screen: Manage your AMP and public cloud accounts**

- User Accounts
- Invoices + Payments
- Payment Methods
- Roles and Permissions
  - Review all permissions
- Account Activity

## Release Notes

---

- Release Notes
- Archived Release Notes

For patching information regarding Meltdown and Spectre, see [Meltdown - Spectre Remediation](#).

For Armor's Terms of Service and Service Descriptions, please visit the [main Armor website](#).

## Armor API Guide

---

- Overview
- Log into Armor API
- The Interactive Armor API
- Authentication API Calls
- Infrastructure API Calls
- Network Services API Calls
- Security API Calls
- Support API Calls
- Account Management API calls
