

# Get Vulnerability Scan Report ID

This topic only applies to **Armor Anywhere** users.

The **Get Vulnerability Scan Report** API retrieves the **scanReportId** and the **historyId**.

You will need the **scanReportId** for other vulnerability scan-related APIs.

## Sample Request

```
GET https://api.armor.com/vulnerability-scan/report
```

## Input

The following table describes the different parts of this API call:

API Call / URL	Method / Type
<code>/vulnerability-scan/report</code>	GET

There are no parameters for this API call.

## Sample Return

Status	Response
200	<pre>{   "scanReportId": 1,   "historyId": 42 }</pre>
