

Initiate Password Reset

The **Initiate Password Reset** API call initiates a password reset.

 You can use the [Get Users](#) API to find the `userId` (id).

Sample Request

```
POST https://api.armor.com/reset/initiate

{
  userId:0
}
```

Input

The following table describes the different parts of this API call:

API Call / URL	Method / Type
<code>/reset/initiate</code>	POST

The following table describes the parameter (or parameters) for this API call:

Parameter	Description	Format	Required or optional	Example
<code>userId</code>	The ID of the user	Integer	Required	0

Sample Return

Status	Response
200	<pre>{ "success": true }</pre>
400	<pre>Bad Request {}</pre>
