## August 8, 2019 Topics Discussed

Activity, Malware Protection

### Activity UPDATE

In the Armor Management Portal (AMP), the **Activity** screen has been updated.

The following changes will now be tracked and displayed on this screen:

- Affected Username displays when a change is performed to a specific user.
- VM Friendly Name displays when a Rubrik agent is registered on a virtual machine.
- VM ID and VM UUID display when a change is made to a specific virtual machine.

The screenshot shows the 'Account Activity' page in the AMP. The left sidebar has 'Activity' highlighted. The main content area shows a table with columns: USER, TYPE, DATE, and ACTIVITY. A single row is visible with the following data:

USER	TYPE	DATE	ACTIVITY
Chris	Account	Yesterday, 7:37 AM	Removed user from Billing role membership

Below the table, a detailed view of the activity is shown with the following fields:

- AFFECTED USERNAME: [Redacted]
- URL: http://api.cert.armorlabs.com/console/7070/members/10348
- USER: Chris

The screenshot shows the 'Account Activity' page in the AMP. The left sidebar has 'Activity' highlighted. The main content area shows a table with columns: USER, TYPE, DATE, and ACTIVITY. Multiple rows are visible, including one for VM agent registration:

USER	TYPE	DATE	ACTIVITY
Christopher	Infrastructure	Yesterday, 3:00 PM	Submitted powerOn request to VM 0_Ubuntu 16 Hck02 (AC-3130)
Christopher	Infrastructure	Yesterday, 2:30 PM	Submitted forcePowerOff request to VM 0_Ubuntu 16 Hck01
Christopher	Infrastructure	Yesterday, 2:30 PM	Submitted powerOn request to VM 0_Ubuntu 16 Hck01
Christopher	Infrastructure	Yesterday, 2:20 PM	Added A1-Ubuntu 16.04 LTS VM 0_Ubuntu 16 Hck02 (AC-3130)
Christopher	Infrastructure	Yesterday, 2:20 PM	Submitted powerOn request to VM 0_Ubuntu 16 Hck02 (AC-3130)
Christopher	Infrastructure	Yesterday, 2:18 PM	Submitted forcePowerOff request to VM 0_Ubuntu 16 Hck01
Christopher	Infrastructure	Yesterday, 2:11 PM	Rubrik agent registered on VM MAM_Rubrik_01

Below the table, a detailed view of the activity is shown with the following fields:

- URL: http://internal-api.cert.armorlabs.com/backups/vms/10725/register-agent
- USER: Christopher
- UUID: um-vcoud-vm-4e3706eb-fea8-4959-bc9f-6ae12e0e38e
- VM ID: 10225
- VM NAME: MAM\_Rubrik\_01

To learn more, see [Account Activity](#).

## Malware Protection GENERAL

In the Armor Management Portal (AMP), in the **Malware Protection** screen, there was a bug in the **Scan Activity** section, where the **Name** column would incorrectly display the coreinstance ID of the virtual machine. This bug has been resolved, and the column now displays the friendly name of the virtual machine.

Additionally, in the **Malware Events** section, a successful scan would incorrectly display as a failed scan. This issue has been resolved.
