### Step 2: Order Microsoft SQL Server

1. In the Armor Management Portal (AMP), in the left-side navigation, click **Marketplace**.
2. Locate and select **SQL Server**.
3. Locate the desired add-on product, and then click **Choose This**.
4. Click **Purchase**.

5. A ticket will be automatically created and sent to Armor Support. To see the status of this ticket, in the left-side navigation, click **Support**, and then click **Tickets**. Armor will use this ticket to communicate with you about the status of your order and to inquire about your specific configuration requests.

## Windows Remote Desktop Services License

---

1. In the Armor Management Portal (AMP), in the left-side navigation, click **Marketplace**.
2. Locate and select **Windows Remote Desktop Services License**.
3. Locate the desired add-on product option, and then select **Choose This**.
4. Click **Purchase**.
5. (Optional) A ticket will be automatically created and sent to Armor Support. To see the status of this ticket, in the left-side navigation, click **Support**, and then click **Tickets**. Armor will use this ticket to communicate with you about the status of your order and to inquire about your specific configuration requests.

After a successful order, you will receive information to access the Microsoft portal to make your configurations.
