Armor Knowledge Base / Release Notes / 2016

November 17, 2016

Topics Discussed

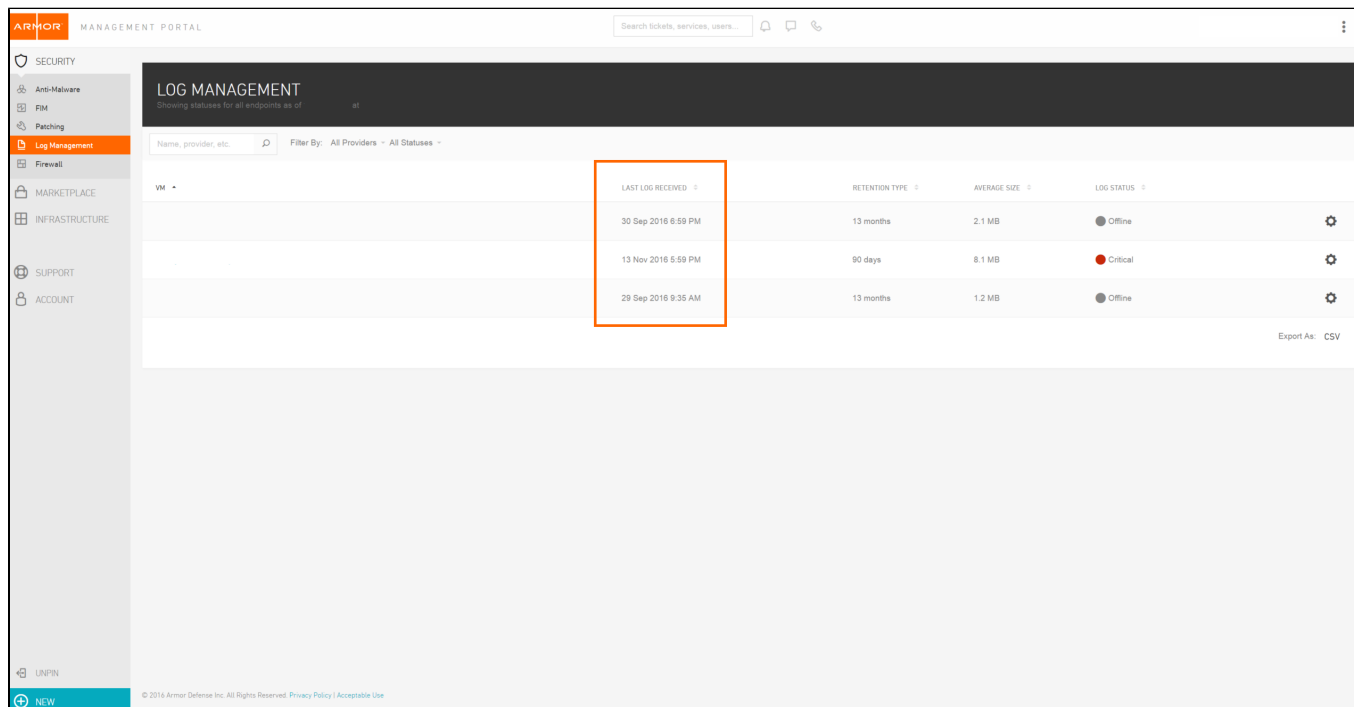

Log Management, Virtual Machines, User Details, Phone Number Validation, Invoices, Support Tickets

Log Management

UPDATE

In the Armor Management Portal (AMP), in the **Log Management** screen, the **Date** column is now labeled as **Last Log Received**.

This update also takes place when you export the log management data into a CSV file.

Name, provider, etc.	Filter By: All Providers - All Statuses	LAST LOG RECEIVED	RETENTION TYPE	AVERAGE SIZE	LOG STATUS
VM		30 Sep 2016 6:59 PM	13 months	2.1 MB	Offline
		13 Nov 2016 5:59 PM	90 days	8.1 MB	Critical
		29 Sep 2016 9:35 AM	13 months	1.2 MB	Offline

Export As: CSV

Virtual Machines

UPDATE

In the Armor Management Portal (AMP), in the **Virtual Machines** screen, the **Security** column has been removed.

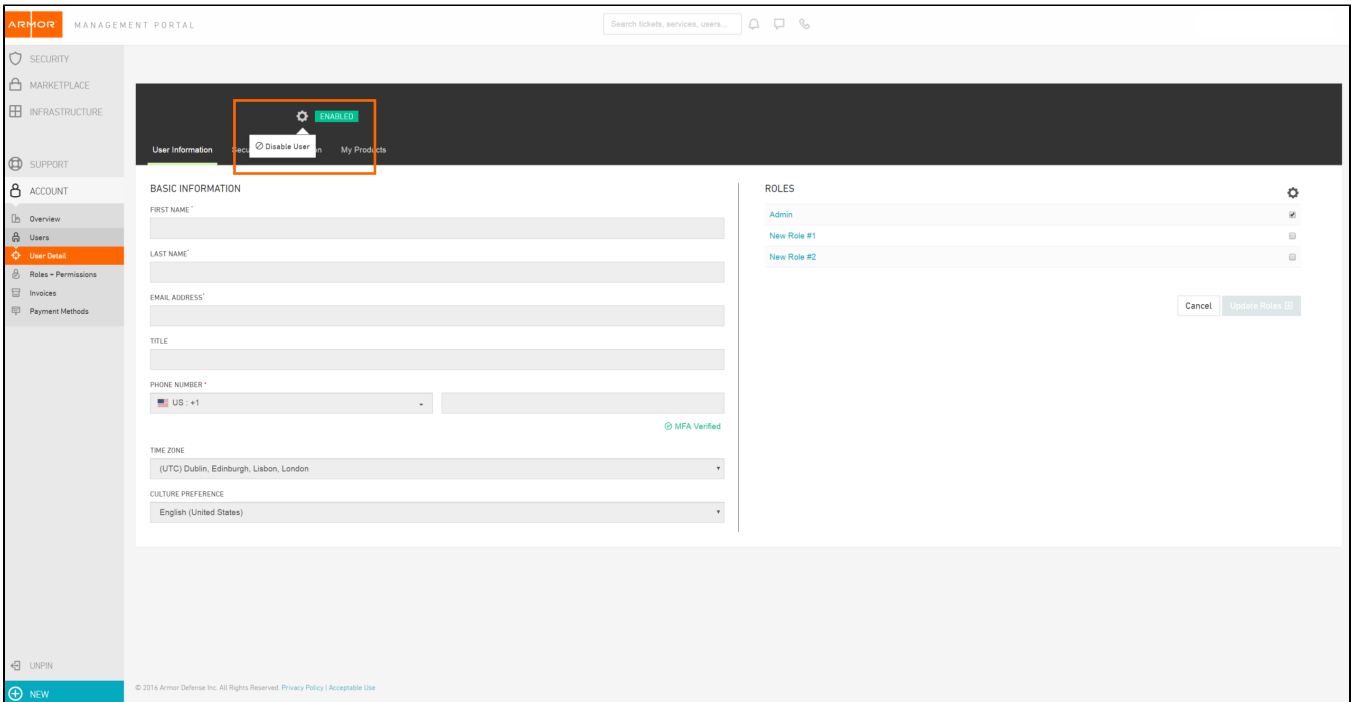

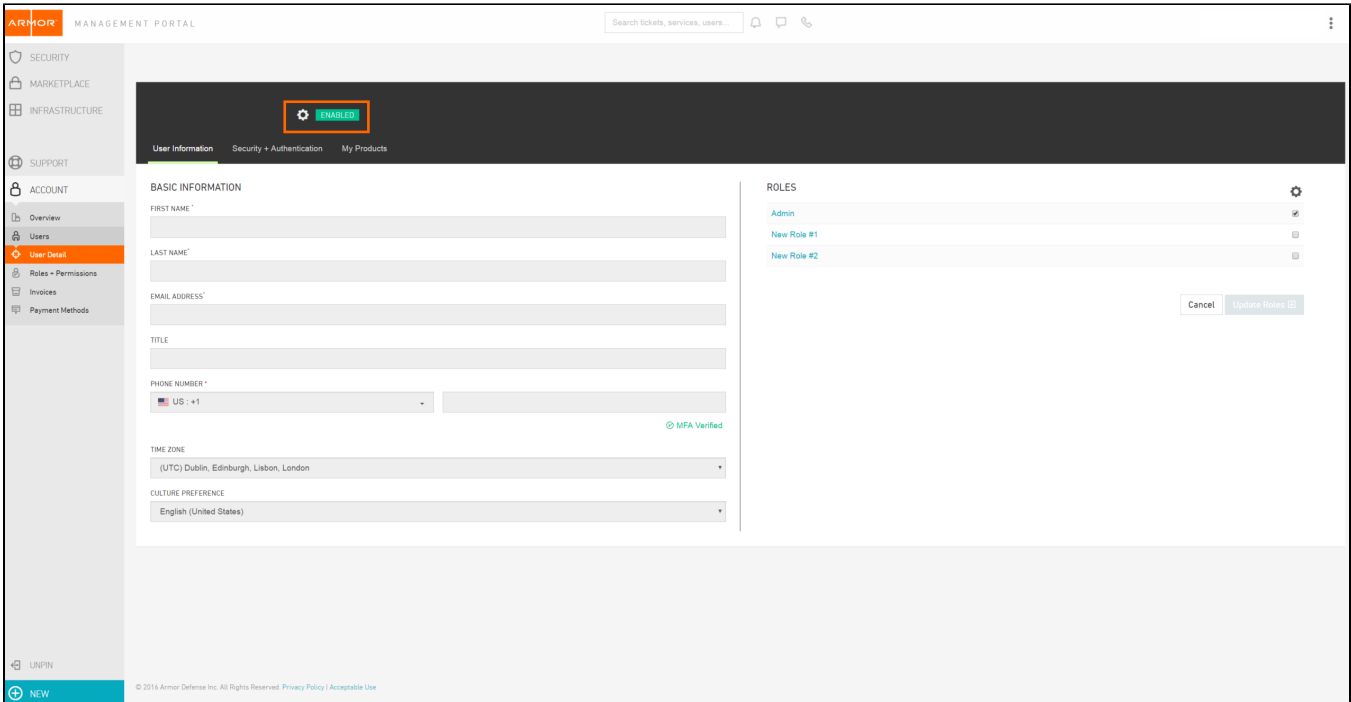

This update also takes place when you export the log management data into a CSV file.

User Details

UPDATE

In the Armor Management Portal (AMP), in the **User Details** screen, the header now contains a gear icon that you can click to enable or disable a user.

The ability to enable or disable a user was already displayed in the header; however, the gear icon was added to be consistent with other screens in AMP.

Phone number validation [UPDATE](#)

In the Armor Management Portal (AMP), in the **User Details** screen, the phone number validation functionality has been updated.

Previously, you had to enter your phone number without spaces and without special characters. Now, you can enter a phone number in a variety of ways, such as (555) 555-5555, 555 555 5555, 5555555555, etc.

Invoices [UPDATE](#)

In the Armor Management Portal (AMP), invoices for **Armor Marketplace** add-on products will now contain the name of the add-on product.

Previously, these invoices only contained the SKU code for the purchased add-on product.

Additionally, these invoices will now categorize each add-on product into one of the following categories:

- Instance
- Appliance
- Security
- Compliance
- Disk
- Network
- Other

Support Tickets

UPDATE

In the Armor Management Portal (AMP), migrated users can now view old Support Tickets from my.armor.com.

Previously, AMP did not contain any Support Tickets from my.armor.com. Now, if you are a migrated customer, you have the ability to access your Support Tickets from my.armor.com.
