December 13, 2016

Topics Discussed

Marketplace, Compliance, Anti-Malware and FIM

Marketplace

[UPDATE](#)

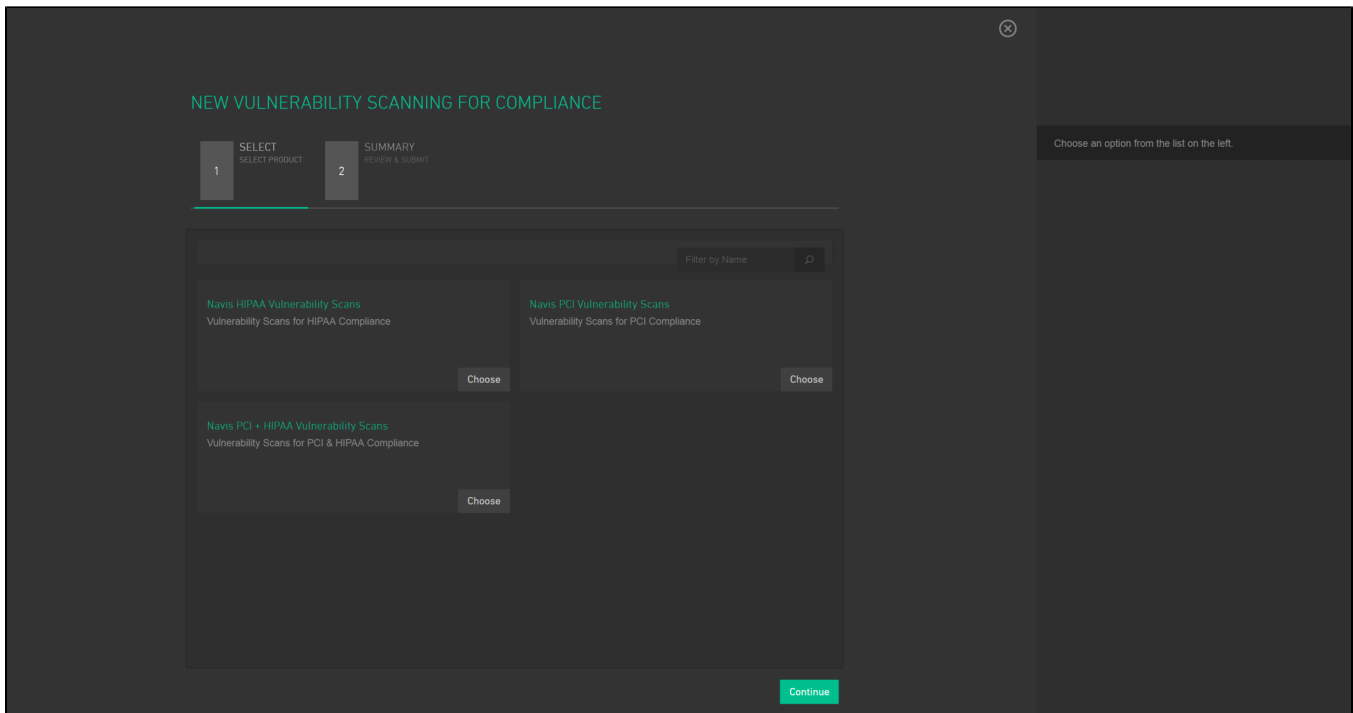

This topic only applies to **Armor Complete** users.

In the **Armor Management Portal (AMP)**, in the **Armor Marketplace** screen, you can now purchase **Vulnerability Scanning for Compliance**, provided by Coalfire.

There are three options available to order and purchase:

- Navis HIPAA Vulnerability Scans
- Navis PCI Vulnerability Scans
- Navis PCI + HIPAA Vulnerability Scans

The screenshot displays the Armor Management Portal (AMP) Marketplace interface. On the left is a navigation sidebar with categories: SECURITY, MARKETPLACE (highlighted), INFRASTRUCTURE, COMPLIANCE, SUPPORT, and ACCOUNT. The main content area shows a grid of service cards. Each card includes an icon, a title, a brief description, and a button to either 'Choose' or 'Configure' the service. The 'Vulnerability Scanning for Compliance' card is highlighted with a red border. It features a target icon and states: 'Vulnerability Scanning for Compliance provides Approved Scanning Vendor (ASV) vulnerability scans powered by Coalfire'. Other visible services include SSL Certificate, Backup & Recovery Agent, Persistent Data Encryption Agent, Virtual Machine, Load Balancer, Backup & Recovery Server, Persistent Data Encryption Manager, and Advanced WAF. The footer contains the text '© 2016 Armor Defense Inc. All Rights Reserved. Privacy Policy | Acceptable Use'.

To learn how to order **Vulnerability Scanning for Compliance**, see [Armor Marketplace](#).

To learn how to maintain and configure **Vulnerability Scanning for Compliance** in the Armor Management Portal (AMP), see [Compliance](#).

To learn about basic product features, see [Service Description - Vulnerability Scanning \(Navis\) \(Gen4\)](#).

Compliance NEW

 This topic only applies to **Armor Complete** users.

In the Armor Management Portal (AMP), the **Compliance** screen displays the vulnerability scanning options that you ordered from the Armor Marketplace.

After you order a vulnerability scanning option the Armor Marketplace, the **Compliance** screen will be populated.

Use the **Compliance** screen to:

- View the status of the vulnerability scan
- Upgrade or downgrade your service
- Access the Navis portal to schedule a scan.

For more information on the **Compliance** screen, see [Compliance](#).

Anti-Malware and FIM

UPDATE

In the Armor Management Portal (AMP), the **Anti-Malware** and **FIM** screens now display real-time scanning.

- For **FIM**, real-time scanning is only available for Windows users.
- For **Anti-Malware**, real-time scanning is only available for Windows, RedHat, and CentOS users.

In the **FIM Details** screen, in the **Last Scan Time** box, the term **Persistent** indicates real-time scanning.

In the **Anti-Malware** screen, under **Last Scan**, the term **Persistent** indicates real-time scanning.
